

MANOUSOS LINARDAKIS

AI / MACHINE LEARNING RESEARCHER | DATA SCIENCE & ML
Athens, Greece • manouslinard@gmail.com • linkedin.com/in/manouslinard • manouslinard.github.io

EXPERIENCE

Medical AI Researcher | Harokopio University | Jun 2026 – Present

Conducting research in medical AI within the Department of Informatics and Telematics.

Healthcare IT | Greek Army | Jan 2026 – Oct 2026

Provided IT infrastructure and systems support within a hospital environment, supporting reliable digital operations for medical professionals.

AI/ML Research Associate | Harokopio University | Mar 2024 – Jul 2025

Conducted full-time research in multi-robot exploration and part-time literature review on computer vision, with a focus on hand gesture recognition. Research carried out under EU grant agreement No. 101073876 (Ceasefire).

Laboratory Systems Administrator | Harokopio University | Jun 2023 – May 2024

Managed and oversaw laboratory facilities, implementing DevOps practices, web development, and systems administration. Worked under grant agreement No. 871385 (TEACHING H2020-ICT).

Open Source Developer | Google Summer of Code | May 2023 – Aug 2023

Implemented a robotic web simulator for the open-source FOSSbot project ([view project](#), [cert](#)). Also created a desktop simulator for FOSSbot in the period of Jul 2022 - Oct 2022 ([view contributions](#)).

Decision Support Software Developer | PANAGIOTIDIS & CO | Feb 2022 – Mar 2022

Developed Python applications for decision support and performed software/file maintenance.

EDUCATION

MSc, Data Science & Machine Learning | National Technical University of Athens, School of Electrical & Computer Engineering | Sep 2024 – Aug 2026 • Final grade average: 9.56/10.

Hons BSc, Informatics & Telematics | Harokopio University | Oct 2020 – Jul 2024 • Final grade average: 9.52/10; highest BSc grade of all-time in the Department of Informatics and Telematics.

RESEARCH & PUBLICATIONS

- [Visual Hand Gesture Recognition with Deep Learning: A Comprehensive Review](#) — Neurocomputing
- [Survey on Hand Gesture Recognition From Visual Input](#) — IEEE Access
- [Distributed Maze Exploration Using Multiple Agents and Optimal Goal Assignment](#) — IEEE Access
- [Multi-robot Maze Exploration Using an Efficient Cost-Utility Method](#) — ACM/SETN 2024

SELECTED PROJECTS

- [Data Science & Machine Learning](#) — Harokopio University of Athens
- [Driver Sleep & Distraction Detector](#) — TEACHING H2020 Hackathon
- [Smart City App](#) — PHYSICS Hackathon 2023
- [Arduino Bluetooth Controlled Car](#) — NTUA Researchers' Night 2023
- [Full-stack Distributed Leasing System](#) — Harokopio University of Athens

TECHNICAL SKILLS

- Languages & ML: Python, PyTorch, Java, R, C, C#, Lua
- Data & Distributed Systems: PySpark, HDFS, PostgreSQL, OracleDB, SQLite
- Web & Software: Flask, Spring Boot, Django, SocketIO, Android
- DevOps & Systems: Linux, Node-RED, Ansible, Docker
- Robotics & Simulation: Unity, Godot, CoppeliaSim

HONORS, AWARDS & CERTIFICATIONS

- [Highest BSc Grade of Athens](#) — "ΖΩΗΣ ΣΟΥΤΣΟΥ" Scholarship.
- [Georgios Karampatzos Scholarship](#) and [IKY scholarship](#) for academic excellence.
- [1st Prize Certification](#) — H2020 PHYSICS Hackathon 2023.
- [Nominated for Contribution in Scientific Research](#) by Harokopio University.
- [1st Place in "Made with Unity Showcase of August 2021"](#) for the Panda Warrior game.
- [Selected for EU Summer School](#) "Fascinating Electronics for a Cool World" from 350 applicants (40 students selected).
